

This is to inform you of the need to keep the NJ 'Do not Call List' as strong as it is. Having been able to eliminate the multiple solicitation calls has been great. No more call to refinance my mortgage when I don't need to. No more calls to change window and door when I just moved into a new home. No more call from vacation clubs, investment opportunities or just rude telemarketers.

Don't weaken the NJ 'Do not call'. Make the federal standards higher.
